TRIMBLE RESELLER CONFIDENTIAL

Installing Licenses from a USB Drive

All licenses for the Trimble® GFX-750™ Display System (including the NAV-900 guidance controller and Precision-IQ™) are managed through the display using App Central. Purchase and download licenses from the Trimble Store and save them to the root level of a USB drive. To install the license:

1. Insert the USB drive into the GFX-750 display and tap the **App Central** icon:

2. On the App Central screen, tap the **Add** icon in the lower right corner:

3. Tap the **Install from USB** item:

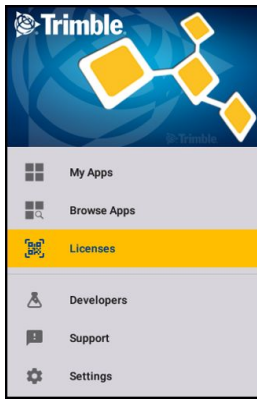

4. In the pop-up window for your USB drive, tap the license you want to install. The license will be installed automatically.
5. Confirm that the license was installed. From the App Central menu, tap **Licenses**:
