

Edit/Delete an Implement or Application Control Channel

AGRICULTURE

February 2019

TRIMBLE RESELLER CONFIDENTIAL

Edit an Implement

1. From the Home screen, tap the **Implement** tile to display the Implement screen.

This screen shows a list of available implements. Tap an implement to view details about the selected implement.

2. Tap an implement to select it. Then tap the **Edit** button. The Summary screen of the implement displays.
3. Tap the section where you want to make edits and enter the appropriate changes. For example, if you need to update an implements measurements (as described in [Taking Implement Measurements](#)), tap **Inputs** to enter the appropriate measurement values.
4. When you are finished, tap **Summary** at the top right corner of the screen.

If any part of the setup is Not Complete, you can save the changes but you cannot use the implement on the Run screen.

5. Tap the **Save** icon to save your changes to the implement. The Home screen displays.

To cancel/remove your edits and not change the existing profile, tap the Android **Back** button on the display. A message displays, asking if you want to save your changes. Tap **No**.

Edit an Application Control Channel

To configure or edit an application control channel for an existing implement:

1. From the Home screen, tap the **Implement** tile to display the Implement screen.
2. Tap the **Edit** button to display the Summary screen of the implement.
3. Tap the **Application Control** tab. For the control channel you want to modify, tap the **Settings** button, then select **Modify**.
4. When you finish making changes, tap **Summary** at the top right corner of the screen.

If any part of the setup is not complete, you can save the changes but you cannot use the implement on the Run screen.

5. Tap **Save** to save the channel and return to the Application Control section.

Delete an Implement or Application Control Channel

You can delete an implement or application control channel. However, when you do so, all settings associated with that implement or application control channel will also be deleted.

To delete an implement or application control channel:

1. From the Home screen, tap the **Implement** tile to display the Implement screen.
This screen shows a list of available implements.
2. Select an action:
 - [Delete an Implement](#)
 - [Delete an Application Channel](#)

Delete an Implement

1. Tap the implement you want to delete to select it.
2. Tap the **Delete** button.
3. On the confirmation pop-up window, tap the green check to confirm that you want to remove the implement and to complete the delete process.

Delete an Application Channel

1. Tap an implement to select it. Then tap the **Edit** button to display the implements Summary screen.
2. Tap the **Application Control** tab to display all channels assigned.
3. For the application control channel that you want to remove, tap the **Settings** button.
4. On the confirmation message, tap **Yes** to confirm the removal. Otherwise, tap **No** to cancel the removal.
5. When you finish making changes, tap **Summary** at the top right corner of the screen. If any part of the setup is Not Complete, you can save the changes but you cannot use the implement on the Run screen.
6. Tap **Save** to save the channel and return to the Application Control section. The application returns you to the Implement setup panel.

To exit channel setup without saving, tap the Android **Back** button. A message displays, asking if you want to cancel without saving your changes. Tap **Cancel**.
